

# SCAVENGER HUNT

We're going on a scavenger hunt! Let's get outside (or inside) and find these items that share the same name as some curling items (but in everyday life).

## TWO WAYS TO PLAY!

1

Use our checklist and find them all!

2

Pick a card. Cut out the cards, place them in a stack, pull the first one and find that item. The next person/team picks the next card and must find that item, and so on.

Looking for a harder challenge? Bonus points for anyone that can find an item and write what the term means in curling.

Example:

	<p><b>ROCKS</b></p>	<p>Equipment that is delivered down the ice towards a target in curling to score points.</p>
---	---------------------	--

Use either method to compete against another class, student, friend, sibling or family. Play virtually with someone you cannot be near for game night, or have fun on a class walk to get outside.

No need to bring or move the item, just find it, check it off, or take a picture and then move on to the next one.
